**A GLORIOUS NEW SHRUB**  
Cole's 1940 Introduction. Not Patented.

Cole's Glorious. *Glorious Mockorange*—8'  
(Virginale X Rosace). A Cole origination of great merit. Mammoth flowers of snowy white; large glossy rich green foliage of leathery texture densely set on the shrub. Strong upright neat growing compact shrub, profuse in bloom. A most prominent hybridist and horticulturist who has personally done a great deal of work on Mockorange proclaims Cole's Glorious to be the finest of all.

## ROSES

We add a number of thoroughly tested roses to our collection each year and eliminate a few of the least worth-while.

We endeavor to always have a very high class collection to meet all needs. (See Pages 58 to 62).

### NORTHERN GROWN ROSES

Our trade recognizes the uniform quality, hardiness, and "trueness to name" of Cole's Painesville Grown Roses. We have guarded this reputation zealously and have gone to no end of labor to see that we had an ample crop for our regular customers in the face, many times, of adverse economic, trade, and weather conditions.

We hope you will bear in mind the conditions herein mentioned when selecting your source of supply.

## NEW AND KOREAN CHRYSANTHEMUMS

Without question the greatest new creation in the perennial world. Korean Chrysanthemums are perfectly hardy—a requisite for satisfaction lacking in the old types; they are easier to grow and are more profuse in blooming. The lovely pastel shades defy description. Wonderful for table decorations and compelling for color effect in the garden.
